

# Page 7- Doctor's Appointment

Every so often, I go for appointments with a special doctor called a neurosurgeon. This is a doctor who knows all about the brain and nerves. An appointment with a neurosurgeon includes a checkup where the doctor uses special tools to look at your

- Eyes
- Ears
- Top of head

Help me colour and match the names of the special tools that the doctor uses during my appointments!

**Phoropter (Used for looking at Eyes)**

**Otoscope (Used for looking at Ears)**

**Stethoscope (Used for listening to heart)**
